

Edgenuity Student Progress Report

Knowing how your student is performing in his or her courses is important. We want to make sure that you not only have access to that information, but also know how to interpret it.

NAME OF COURSE: At the top of the report, you will see the name of the course.

COURSE COMPLETED: There are three elements in the Course Completed section that inform you of the progress your student is making in that specific course:

- **Course Completed percentage:** This number indicates how complete your student is with the course, working toward the ultimate goal of 100 percent completion.
- **Color-coded completion squares:** The colors in the square blocks just below the Course Completed percentage represent your student's progress:
 - **Red:** Your student is falling behind.
 - **Blue:** Your student is on track.
 - **Green:** Your student is ahead of schedule.
- **Target Completed:** This indicates how far along your student should be.

OVERALL GRADE: This percentage represents the grade your student has acquired thus far in the course, based on all activities and assessments completed. This gives a good indication of how the student is comprehending the material, **however it can be deceiving if the student is behind pace since this grade will be higher than the actual grade. The Actual Grade is the most accurate grade.**

- **Overall Grade percentage:** The percentage grade is based on a one-hundred point scale.
- **Color-coded grade squares:** Quick-reference colors indicate what your student's grade is:
 - **Red:** Grade is between 0 and 59 percent.
 - **Orange:** Grade is between 60 and 69 percent.
 - **Yellow:** Grade is between 70 and 79 percent.
 - **Olive:** Grade is between 80 and 89 percent.
 - **Green:** Grade is between 90 and 100 percent.

NOTE: TASD passing is 65% or higher

ACTUAL GRADE: This percentage represents the grade your student has acquired thus far in the course along with 0s for any work assigned to date but not completed. **This is the grade we use on weekly updates in Home Access. This is the MOST accurate grade to look at on any given day.**

RELATIVE GRADE: This percentage represents the grade your student has acquired thus far in the course but includes 0s for ALL work not completed from this point to the end of the course. **This is the grade that would appear on the report card if a student does not complete a course 100%.**

NOTE: If a student completes a course 100%, all three grades: overall, actual, and relative should all be the same.

The chart at the bottom of the report shows the types of assignments along with the weighted percentage that each carries in the course. This varies from course to course depending on the types of assignments within the course. **Please note that not all "Assignments" are graded – some are typing vocabulary words, practice, or watching videos and must be completed but do not count as scores towards the grade.**
